Med Isola Fly : Flat Retractable Fabric Pergola

Roof System: Retractable

Page 1 of 2

A unique crossbeam structure all weather retractable roof pergola system from Gibus. Patented pantograph sliding system with stainless steel components enhances the design and holds the fabric taut. Freestanding, lateral and front leaning versions available. Made to measure in Italy.

**In Summary**

Polished stainless steel side pantographs which give the unique zigzag appearance. Powder coated aluminium and stainless steel structure protects against corrosion and aggressive agents. Blockout PVC coated polyester fabric which protects from harmful UV rays.

**Average Cost Per Square Metre** (inc VAT)

	Width →		
Projection ↓	< 3m	< 4m	< 5m
< 3m	£950	£800	£700
< 4m	£800	£700	£600

## Key Features

### **Pantograph Closing**

The pantograph puts the fabric in tension through the elastic system given by the lateral springs to achieve the best wind resistance.

### **Pantograph Opening**

The movement of the roof can be done by a manual winch or by a motorised system. Even when the fabric is folded back, water flow is guaranteed.

### **Discharge Of Water**

The side pantographs that characterise the system are pulled and slightly arched to divert rainwater, allowing it to drain laterally.
