Stobag Select : Fabric Awning

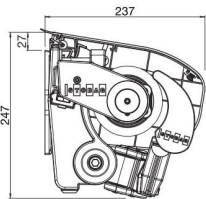

Awnings: Hybrid Fabric Canopy

Page 1 of 2

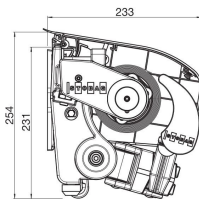

The Stobag Select is an all-rounder among the open awnings. With Volant-Plus, telescopic arms, inclination adjustment or a cover board. Made to measure in Switzerland. It combines generous dimensions and a compact design, up to 18m widths and 3.5m projections. The Select is particularly well suited to the catering and commercial sector. But its many options also make it a good choice for the private sector where larger areas need shading.

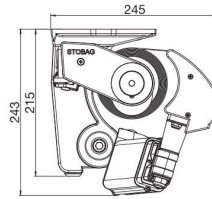

Dimensions and Fixings

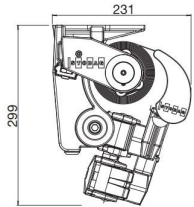

Wall installation with top board - S8130

Wall installation with top board - S8134

Top installation - S8130/2

Top installation - S8133

Product Features

Extremely stable due to triangular back bar technology

- Various mounting options to the wall, below the ceiling or to the frames
- Variable bracket positioning.
- Cover remains consistently taut and high thanks to telescopic arm technology
- Angle can be adjusted manually up to 60 °
- Projection can be greater than its width.
- The incline angle corresponds to the optional adjustable cover board.
- Optional valance provides additional shade and hides the awning arms from view.
- Optional drop down valance

Drops Down Valance

The lowerable Volant-Plus valance, with a maximum height of 170cm, protects you from low sun and prying eyes.

Telescopic Arm Technology

The telescopic arm technology developed by Stobag keeps the fabric constantly under tension, in a simple and space-saving design.

Cross-Over Folding Arms

When you need more projection than width. These articulated arms can shade, and can reliably be provided for narrow roof patios and window niches.

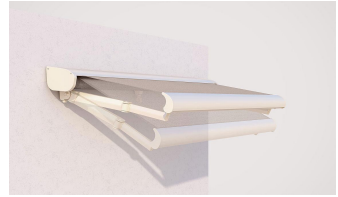

Cover Board

The lowerable Volant-Plus valance, with a maximum height of 170cm, protects you from low sun and prying eyes.

Half Box

The slim aluminium sleeve protects the fabric when retracted. With the external articulated arms on the sturdy triangular back bar, the facade mounting is flexible and compact.

Cross-Over Folding Arms

When you need more projection than width. These articulated arms can shade, and can reliably be provided for narrow roof patios and window niches.

Valance

The valance, which is available in various shapes, not only brings you additional shade, it also serves as a cover for the awning arms when retracted.

Projection

Minimum projection being 140cm. Maximum being 350cm. *with drop down valance to max. 700cm wide

Width

Minimum width being 170cm. Maximum width 1800cm.

Motorised

All Stobag products can be remotely controlled.

Wind

Beaufort Scale 5. The wind resistance class can vary depending on version and dimension.
